

SCHOOL OF CHEMICAL SCIENCES

CHEMISTRY (OPEN ELECTIVE PACKAGE)

OBJECTIVES

The purpose of the courses offered provide an opportunity for students who do not specialize in chemistry. The curriculum focuses on fundamental concepts and key methods to provide understanding on the importance of chemistry in everyday life and industrial development.

PROGRAMME STRUCTURE

Course selection is all Bachelor of Science in Chemistry with Honours core courses as listed below in addition to the respective school's program requirements (to accumulate a total of 20 units).

Code	Course Name	Pre-requisites	Semester Offered
KTT112/4	Inorganic Chemistry I	-	I
KOT122 /4	Organic Chemistry I	-	II
KUT101/2	General Chemistry Practical I	-	II
KUT102/2	General Chemistry Practical II	-	I
KFT133/4	Physical Chemistry I	-	I
KAT145/4	Analytical Chemistry I	-	II

Reminder:

Students with science background only can register for the above listed courses and subject to there is no clash of Timetables.
